## President & CEO

Alcides Santana

**Alcides Santana spurs innovation, supporting veterans & service members with healthcare IT advancements. With a strong background in systems analysis and military service, AI has developed PTI into a driving force in emerging technology.**

## Our Custom Solutions

### Asset & Service Management

**Elevate your organization's efficiency and service quality with ServiceNow IT Asset & Service Management. This transformative platform modernizes asset and service management processes by seamlessly integrating industry best practices, including ITIL and ISO standards. Say goodbye to technical risks while enhancing customer experiences.**

### VR Art Therapy

**Experience the future of healthcare with Reflect XR, a telehealth innovation. Our groundbreaking VR-mediated art therapy platform revolutionizes patient recovery. Through the power of Virtual Reality and creative self-portraits, Reflect XR fosters self-awareness, emotional healing, and enhanced therapeutic outcomes. Join us in reshaping remote healthcare with Reflect XR, where art, technology, and healing converge for a brighter tomorrow.**

### Data Infrastructure

**PTI provides a holistic 360° patient view, unifying structured and unstructured data to enhance data quality and accuracy. Our processing solutions can empower various applications, from hospital bed management to pharmaceutical optimization, ensuring consistency, relevance, and timeliness. With AI/ML-powered insights, we enhance understanding and predictive healthcare capabilities, delivering high-quality data.**

## Certified Partnerships

- **ServiceNow**
- **Salesforce**
- **IVRHA**
- **VR/AR Association**
- **InterSystems/HealthShare**
- **Microsoft Azure**
- **AWS Gov Cloud**
- **Carahsoft**
- **Hyland**
- **Databricks**

## Accomplishments

**Persistent Technology delivers innovative enterprise solutions, promoting interoperability across federal agencies. We support 190k users, exchanging 100 million clinical records annually for the nation's largest healthcare system. Our work optimizes the VA's supply chain management through cutting-edge DevSecOps and SAFe practices, providing training and robust cybersecurity solutions for the DoD and VA Medical Logistics. Our agile development and IT modernization benefits Customs & Border Patrol systems with application development and automated testing, ensuring reliable scalability for critical operations. Additionally, we leverage emerging technologies for solutions, like our Reflect XR art therapy.**
